VulnScan Pro

Security Assessment Report

Target URL: https://www.mycamu.co.in/

Scan Date: 2026-02-24 07:44:59

Overall Score: 0/100 (Grade: F)

Executive Summary

Security score is 0/100. Found 4 high severity issues.

OWASP Mapping

OWASP Category	CWE	CVSS	Finding	Severity
A02:2021 - Cryptographic Failures				
	CWE-298	7.4	Invalid Cert	HIGH
A03:2021 - Injection				
	CWE-79	6.1	X-XSS-Protection	INFO
A05:2021 - Security Misconfiguration				
	CWE-319	7.4	Strict-Transport-Security	INFO
	CWE-923	7.3	Port 21 open	HIGH
	CWE-923	7.3	Port 80 open	INFO
	CWE-923	7.3	Port 443 open	INFO
	CWE-693	6.1	Content-Security-Policy	HIGH
	CWE-1021	6.1	X-Frame-Options	MEDIUM
	CWE-183	5.3	Missing SPF	MEDIUM
	CWE-693	4.3	X-Content-Type-Options	INFO
A06:2021 - Vulnerable and Outdated Components				
	CWE-1104	7.5	Referrer-Policy	LOW
	CWE-1104	7.5	Permissions-Policy	LOW
	CWE-1104	7.5	Cache-Control	INFO
	CWE-1104	7.5	Cookie (X-App-Type)	MEDIUM

Port Scan

Finding	Severity	Description	Recommendation
Port 21 open	HIGH	Service: FTP	Close port if not needed.
Port 80 open	INFO	Service: HTTP	
Port 443 open	INFO	Service: HTTPS	

Headers

Finding	Severity	Description	Recommendation
Content-Security-Policy	HIGH	Missing	Implement CSP to prevent XSS.
Strict-Transport-Security	INFO	Present	Well configured.
X-Frame-Options	MEDIUM	Missing	Prevent clickjacking by setting to DENY or
X-Content-Type-Options	INFO	Present	Well configured.
X-XSS-Protection	INFO	Present	Well configured.
Referrer-Policy	LOW	Missing	Control referrer information sent to other si
Permissions-Policy	LOW	Missing	Restrict access to browser features like ca
Cache-Control	INFO	Present	Well configured.
Cookie (X-App-Type)	MEDIUM	Missing	Add Secure, HttpOnly flag to cookie X-App

Ssl

Finding	Severity	Description	Recommendation
Invalid Cert	HIGH	Cert is expired or invalid	Renew cert

Dns

Finding	Severity	Description	Recommendation
Missing SPF	MEDIUM	No SPF record found	Add SPF record

Remediation Checklist

Follow these recommendations to improve your security posture:

- Close port if not needed.
- Implement CSP to prevent XSS.
- Renew cert
